ProQuest RefWorks Ex Libris RefWorks

RefWorks

Software

RefWorks is a web-based commercial reference management software package. It is produced by Ex Libris, a ProQuest company. RefWorks LLC was founded in 2001 and the software was marketed by Cambridge Scientific Abstracts from 2002 until being acquired by ProQuest in 2008. [Wikipedia](#)

The screenshot displays the RefWorks web interface. At the top left is the RefWorks logo. The top right corner shows the user's name, Ahmad Sobri, and the institution, International Medical University. Below the header is a navigation menu with options: References, View, Search, Bibliography, Tools, and Help. A search bar labeled "Search Your Database" is positioned to the right of the menu. Below the navigation menu are three buttons: "New Folder", "Create Bibliography", and "New Reference". A breadcrumb trail indicates the current location: "References > All References". Below this is a control bar with tabs for "References" and "Organize & Share Folders". Under the "References" tab, there are radio buttons for "Selected", "Page", and "All in List". To the right of these are icons for folder operations (add, delete, print) and a "Sort by" dropdown menu set to "Authors, Primary". Further right is a "Change View" dropdown menu set to "Standard View". Below the control bar, the text "No references found." is displayed. On the right side of the interface is a sidebar with several sections: "Resources" (containing links to Support Center and Webinars, and social media icons for Facebook and Twitter), "Folders" (containing "My List", "Not In Folder (0)", and "Last Imported (0)"), "Quick Access" (containing links for Advanced Search, Import, Export, Create Bibliography, and Print References), and "Statistics" (showing "Reference(s)").

Thank you!
